## About DBGI

**Dev Bhoomi Group of Institutions**, Dehradun, Uttarakhand situated in the land of Gods, has stood true to its name and pledged to provide a world-class education and best possible facilities to its students. With the tenacity to step in the education industry and constant perseverance, today DBGI is amongst the top Institutions, with multifaceted regimes and courses. **Dev Bhoomi Group of Institutions**, Dehradun took its first steps in the world of education as Engineering College in Dehradun (DBIT). Subsequent to its commencement in the year 2005, the growth chart of the Institute has been phenomenal. The Institute provides the perfect of theoretical and practical knowledge. It is through its perseverance and positive response from its students that DBIT is now amongst one of the best Engineering Colleges in Uttarakhand.

## Outcomes of the FDP

- 1.To expose participants to fundamentals of dynamics of structure and to earthquake and wind environmental conditions of the country and the world.
2. To impart knowledge of dynamic behavior of various structural systems using analytical, experimental, computer simulation methods and other modern engineering tools.
- 3.To communicate design methods for earthquake and wind resistant structures including lifeline structure.
- 4.Capacity buildings in upcoming areas of research in the field of earthquake and wind engineering
- 5.To empower participants to serve society in disaster mitigation related to disaster due to earthquake and wind.
- 6.Be able to critically analyze and carry out independent research on complex problems of structural dynamics and earthquake engineering
7. To be able to conceptualize and design civil engineering structures considering various socio - economic factors.
